Welcome

* to a world
of inspiration
and ideas.

* to a space where
mind and matter
coexist and interact
in freedom.

* to Etude 22.

* to Etude 22.

* contribution.

Etude 22

It is a concept that emerges from the mutual contributions that take place in the conception and materialisation of projects.

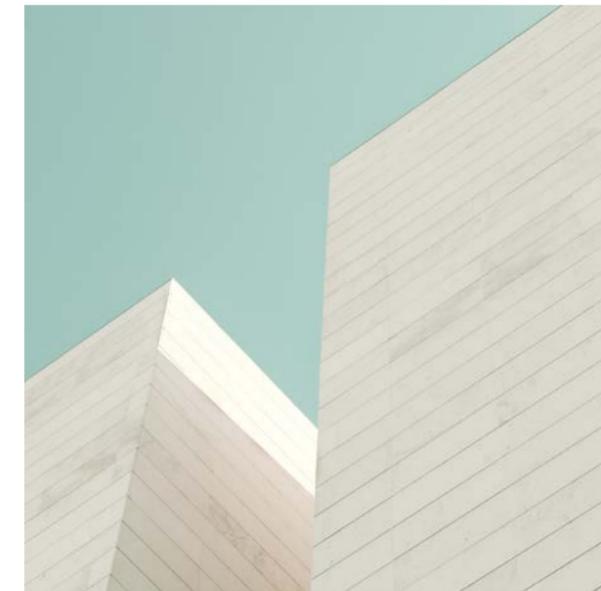

Different views and profiles that share the same interests. These have been the raison d'être of this range of floors that today we are presenting to you so that you can give them their definitive value with your **creativity.**

Project

Thanks to this experience and interrelation, a non-conformist proposal is born, without limits, **malleable** and with an absolutely inspiring vocation directed to those of you who truly conceive the spaces in every project you design. A functional range that offers a subtle mix of textures, woods, geometries and materials.

Etude 22 shows paths that seem to be opposing; it will be you who decides the destination of the trip that begins with every project.

* harmony.

* love.

Mind & Matter sums up the union between the conceptual and the physical, between the dream and reality. Aspects that coexist in your day-to-day and that not only provide a range of decorative solutions, but also aim to invoke a place of very close cooperation between manufacturer and creators. For this reason **Etude 22** comes into existence with very solid principles: immediacy, proximity and constant assessment for the professional.

Decoration, interior design and architecture are precisely that: a process of accompaniment and the delivery of value to the customer. And that's where you'll find us, all the time, always listening attentively, contributing solutions in the transition from your inspiration to the final handover of each project.

Mind & Matter

Free your
mind.

Let yourself
go.

Welcome to

Etude 22.

Products

Characteristics

- * Installation click system
- * High resistance to impact and wear
- * Suitable for heavy commercial and heavy domestic use. Class 33 (EN - 13329)
- * High resistance to fire: Euroclass Bfl s1 (EN - 14041)
- * Anti-static protection
- * Suitable for bathroom and kitchen: domestic installations of products without bevelling
- * Suitable for underfloor heating

- * Plank size: 1331 mm x 194 mm
- * Thickness: 10 mm
- * Plank/box: 7 units
- * m²/box: 1,808 m²

22 YEARS
DOMESTIC USE

10 YEARS*
COMMERCIAL USE

3 YEARS**
BATHROOMS & KITCHENS

* 5 years for bevelled products

** domestic installation of products without bevelling

* durability.

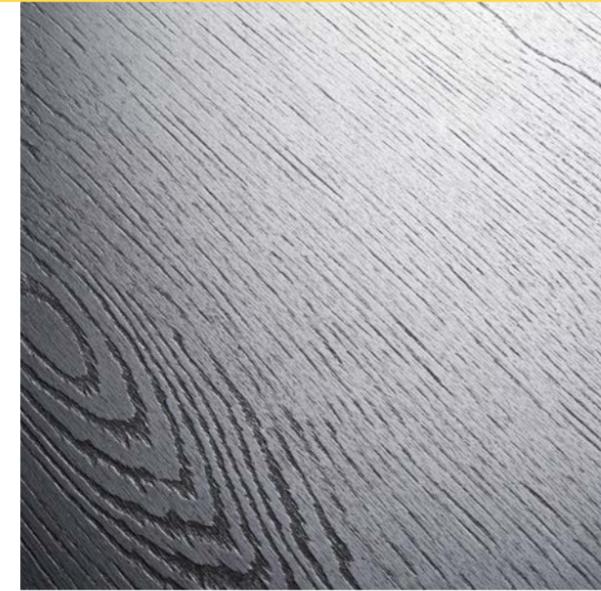

Textures

* difference.

All the **Etude 22** textures are conceived to optimise and magnify the design, working in a single direction that confers this differential point on it.

* realism.

In the designs with **Wood Impression** finish the texture coincides with the original design of the wood, synchronising to provide greater **realism**.

BELLE EPOQUE SPRING

Texture: Urban

Bevel: Without Bevel

View of Plank: Tile

01 **SKIRTING BOARD**
In Moisture-Resistant MDF.

02 **SCOTIA**
In Moisture-Resistant MDF.

03 **STAIR NOSING PROFILE**
Produced with flooring planks, exact design match, the same resistance. Seamless match: joint free, smooth & continuous finish.

04 **EXPANSION PROFILE + Base**
In aluminium for increased durability and a change in level of barely 1 mm.

05 **TRANSITION PROFILE + Base**
In aluminium for increased durability and a change in level of barely 1 mm.

Accessories

Elegant.
Identical decorative finishes.
High resistance.

Complements for the Belle Epoque designs are an 80-mm skirting board and a solution for staircases.
